

SPYDER CHAIR

It's been dubbed 'the little chair that will go anywhere' by our team. The Spyder works well with larger pieces or, with a bold colour or textured fabric, becomes a centerpiece in its own right. The elegant legs have a delicate appearance that belies their true strength.

Constructed in welded steel, powder-coated and bolted on, they deliver a compact silhouette for the deceptively spacious seat. This adaptability is matched by comfort, which is a hall mark of all Kovacs product. Spyder now has an option of a matt black swivel base.

DIMENSIONS (CM)	WIDTH	DEPTH	HEIGHT
Chair	79	73	70
Seat height			43
