DESIGN FURNITURE

DUMPTY OTTOMAN

Conceived during lock down, the Dumpty is a fun way to add extra seating. Compact and friendly it has a range of practical uses, from extra seating or the perfect footstool, to a handy side table. The frame is made from MDF and beech, quality foam is used for the padded outside and cushioned top. Leather workmanship is evident in the quartered upholstery and twin needle top-stitching, and the handles make it easy to pick up to carry wherever it is needed.
